

DBL College

For a better future

DBL Director of English Studies
Quarterly Quality Assurance Report

Quarterly Quality Assurance Policy and Procedure

1. The mission of the College is to develop, promote and maintain education and training programmes to the highest international standards and quality, particularly in the fields of further and higher education.
2. The College has as its central guide a quality ethos, and shall undertake to establish its administrative structure and carry out all its activities according to this ethos.
3. The College understands that it must have in place a working system for monitoring the effectiveness of its quality assurance procedures (including provision for periodic reviews under section 28 (4) of the 1999 Education Act). The College shall carry out a general review of its policy and procedures on an annual basis, during the last week of June each year. This must be completed by 30 June. This will be done in addition to any quality review deemed necessary at another time.
4. The policy regarding communication with learners, staff and any others who have a current or potential interest in the work undertaken and policies observed by the College is contained in the document named "Communications Policy" (Section 13 of the HETAC submission).
5. Consistent with the values and policies of DBL College in other areas, the following principles underpin the policy and process for quality assurance: quality, improvement, transparency, consistency, contextuality, provider responsibility and equality.
6. The responsibility for the quality assurance policy of the College rests with the board of directors of the College. In certain circumstance, the board may delegate responsibility for quality assurance to a particular individual or group of individuals, clearly identified and from an appropriate level in the organisation of the College.
7. The quality assurance procedures provide for the involvement of external experts in the review of the quality assurance policy and procedures. The essential elements in the selection of these experts are independence, transparency and professionalism. All such experts must declare any personal, professional, academic or business interests that could conflict with their responsibilities with regard to quality assurance.
8. The College shall commit to the provision of adequate resources to enable the quality assurance procedures to be implemented satisfactorily.
9. The processes and criteria of the College will be consistent with the highest standards for quality assurance in education. The College expects that these criteria and processes will continue to develop and evolve in line with best international practice.
10. In the context of accountability, quality assurance is used as a mechanism to monitor and improve performance. As such, it involves a commitment to continuous improvement employing three basic activities: setting goals and standards, evaluating practice and structures against these standards, and carrying out follow-up to improve practice and structures.
11. In terms of our quality assurance policy, the central strategic objectives of DBL College are the following:
 - To determine and ensure compliance with appropriate standards of education and training.
 - To promote and support continuous improvement in the quality and standards of provision of education and training, working in partnership and consultation with other education and training stakeholders.
 - To manage our programmes according to quality assurance and learner assessment procedures.

- To ensure that clear and accurate information concerning the quality and standards of our programmes is obtained and made available to the appropriate course planners, teaching staff and other stakeholders.
- To apply international best standards in evaluation and reviews of education and training.

12. The College shall employ a systematic process for achieving and evaluating its objectives. The College shall review its own policies, procedures and practices, to learn whether it is achieving its objectives, and to determine how to improve its performance.

13. In order to achieve this, the College have in place appropriate quantitative and qualitative measures and indicators. This shall be undertaken in the context of the autonomy of the College, as well as the diversity of providers and award bodies with their various emphases in terms of objectives and ethos, teaching content and technique, and methods of evaluation.

14. The College shall undertake to monitor in a systematic and scheduled manner its progress towards achieving its quality goals and, in particular, further strengthening the quality of its educational provision. It understands that there are aspects of quantifiable monitoring that are amenable and others which are less so. To this end, as systematic documentation of actions taken is paramount in maintaining, improving and reviewing quality, the College shall provide evidence in the form of verifiable data concerning the quality objects being monitored.

15. The College shall use as the central elements of its system of quality control the following three activities in a transparent and clear manner:

- Self-evaluation
- External review
- Information to and from stakeholders

16. As such, the quality assurance procedures, in relation to each programme, service or other element concerned, shall focus on:

- Objectives of the programme, service or other element.
- Evidence that the programme, service or other element is meeting its objectives.
- Effectiveness of procedures for correcting deficiencies and making improvements.

17. The College shall use the findings from quality assurance procedures to improve the quality of education and training provision and meet the needs of learners.

18. The College shall take the necessary corrective action to remedy deficiencies identified by the quality assurance procedures.

19. These quality assurance procedures shall incorporate the principle, and facilitate the application and implementation, of internal and external review of the effectiveness of its quality assurance processes.

20. The College shall give relevant information on institutional and programme quality to the appropriate stakeholders.

21. The College shall regard the following as its principal areas of quality assurance:

- 1. Design and approval of new programmes, subjects and modules.
- 2. Assessment of entrants, current learners and graduates, as well as examination candidates.
- 3. Ongoing monitoring of programmes.
- 4. Evaluation of each programme at regular intervals (usually every two years).

- 5. Selection, appointment, appraisal and development of staff.
- 6. Evaluating premises, equipment and facilities
- 7. Evaluating services relating to programmes of education and training.
- 8. Evaluating the effectiveness of quality assurance procedures.

22. The College recognises the need to provide evidence in the form of verifiable data and to document this evidence systematically. The College has established procedures that provide for systematic formal deliberative and decision-making and full follow-up procedures.

23. The College shall use the following methods and tools to carry out its quality assurance procedures:

- The expert panel shall be composed of the following persons: director of studies, director of school and/or registrar, and one external expert, and where and when appropriate teaching staff and other(s) who are deemed necessary.

Assessment of entrants, current learners and graduates:

It shall be the responsibility of the College Principal and the Registrar to ensure the following:

- The educational service offered by the College shall be of the highest quality.
- Clear and transparent communication is undertaken by the most immediate and reliable means.
- Proper assessment is carried out in the placement process.
- The existing structures and mechanisms are assessed at the close of each period.
- The rules and regulations of the College, and where applicable those of an outside awarding body, shall be strictly adhered to with regard to the conduct of entrants, current students, graduates and examination candidates.

Teaching quality:

It shall be the responsibility of the College Principal and the Registrar to ensure the following activities:

- Presentation of syllabus, course plan, materials and related information at the latest two weeks before class starts.
- Review of these by expert panel.
- At least one classroom observation per period.
- One questionnaire at end of period for students and staff.
- One meeting between director of studies, registrar/College director and staff per month.
- One meeting between director of studies, registrar/College director and class representative per month.
- One general meeting with staff at end of period of teaching.
- The rules and regulations of the College, and where applicable those of an outside awarding body, shall be strictly adhered to by all staff.

External awards quality assurance:

It shall be the responsibility of the College Principal and the Registrar to ensure the following activities:

- Identification of roles to be undertaken by College staff and the full responsibilities of each.
- Clear communication of requirements of programmes recognised by external body.
- Full compliance with these requirements and, where applicable, of the rules and regulations of the College.
- Assessment of performance of programme or examinations.
- Review of activities with a view to improving these services.

Facilities and equipment:

It shall be the responsibility of the College Principal and the Registrar to ensure the following:

- Evaluation of adequacy and performance of facilities and equipment once each period through observation, questionnaires, suggestions of external experts, and other methods.

Directors of Studies

Directors of Studies report directly to the Academic Director and Principal, and have responsibility for the overall management of their Schools including:

The director of studies has the following responsibilities and duties:

1. Help ensure – with the director, registrar and staff of the College – the general academic well-being of the programmes of Business
2. The performance and conduct of teachers:
